A driven professional with a background in data analysis, data management, financial reporting, and software development, seeking new challenges and opportunities in the IT industry. Passionate about leveraging technology to provide innovative solutions that optimise business processes and enhance outcomes. Eager to contribute my problem-solving abilities, decision-making skills, and commitment to excellence to projects that foster both personal and professional growth. Ultimately, aspire to become a valuable asset playing a pivotal role in delivering innovative solutions aimed at enhancing processes and outcomes.

Work Experience

Financial Governance Specialist Amsterdam | Oct 2018 - Nov 2023 Enel Finance N.V

Key responsibilities:

- Oversaw financial budgeting and planning processes, guiding strategic alignment and fiscal responsibility.
- Created detailed financial reports driven by data to track key performance indicators, enabling informed decision-making.
- Maintained accuracy and transparency in the company's inter-company financial portfolio through continuous monitoring and reporting.
- Improved reporting efficiency by integrating programming principles, enhancing monthly, quarterly, and pre-closing processes.
- Implemented task automation to increase operational efficiency and productivity by reducing manual workload.

Data Management Amsterdam | Jan 2018 - Sep 2018 Blokker B.V

Key responsibilities:

- Conducted routine audits of databases to pinpoint and rectify errors, safeguarding data accuracy and integrity.
- Analyzed and resolved error messages promptly, escalating irregularities to the Data Manager for resolution.
- Offered clear and concise guidance to stakeholders, addressing inquiries and delivering accurate information.
- Initiated and executed proposals to enhance processes, procedures, systems, and activities, driving efficiency and effectiveness.
- Collaborated on strategies to streamline data management practices, ensuring reliability and efficiency.
